

The Village
**AT THE WOMEN &
CHILDREN'S CAMPUS**

PROJECT SUMMARY

WestCare Nevada currently operates the **Women & Children's Campus**, the only residential treatment facility for women, and women with their children, that have substance use and/or co-occurring disorders in Nevada. Our current campus only has 30 transitional living beds. Due to the need, lengths of stay are currently 90 days. With more transitional services, we can extend the lengths of stays, as needed, while taking in more women and women with children in our program.

To address the need for more services, we are launching a \$17 million capital campaign for the construction of **The Village**. Once completed, The Village will provide women and children a safe, stable, and nurturing living environment while they continue to seek permanent and long-term housing solutions. During their time at The Village, women will gain parenting skills, job coaching, and assistance with meeting their life goals. Upon graduation from our program, we want all women to feel ready to start their next chapter of life.

84 brand new units for women and their children

63,623 sq. ft. campus located on our existing 5-acre property

Expansion of our 130-bed Women & Children's Campus

Two multipurpose rooms, six community gardens, four children's play areas

Children's Learning Center to meet the health, emotional, cognitive, and physical developmental stages

Support Services for job interviews, visits with family, and court and medical appointments

Expansion would TRIPLE CAPACITY

The Village would triple the capacity of our Women & Children's Campus ability to serve women, and women with their children, in recovery. We have identified transitional living as a large, unfilled need in our local Nevada community.

WHAT WE KNOW

1

Residential treatment is a safe, secure environment to work on substance abuse and co-occurring issues. Sometimes people need a break from their life circumstances that influence their drug and/or alcohol use.

2

There needs to be time to allow for stability. Social determinants of health need to be addressed to meet an individual's personal goals.

3

Being prepared for independent living takes time. Individuals can move through our varying levels of care to ensure they meet their health, vocational, employment, and educational needs to successfully re-integrate into society.

Services Offered

- Withdrawal management from drugs and alcohol
- Crisis stabilization
- Treatment for substance abuse and co-occurring mental health
- Prevention of substance abuse
- Services for veterans
- Service for people re-entering the community after incarceration
- Specific services for pregnant and parenting women
- Medication Assisted Treatment (MAT)
- Spiritual Support Services

Accomplishments At the existing Women & Children's Campus

- 450+ women and their children have been served in the FY 19/20
- Over 52% of clients completed and graduated from programs
- Over 54% of individuals secured stable housing prior to discharge
- Over 53% of clients reported a reduction in mental health symptoms
- 21 healthy births of children in the FY 19/20 through our Healthy Families Program
- 30 transitional housing beds were established in FY 18/19 and continue to remain full with a waitlist to enter

Let's talk
PARTNERSHIP

It takes a village to create a community. Join our efforts to bring The Village at the Women & Children's Campus to life by emailing Scott Faulkenberry, Chief Development Officer and Senior Vice President at: scott.faulkenberry@westcare.com

Uplifting the Human Spirit It's what we do at WestCare

Every WestCare Nevada program is part of a continuum of person-centered, trauma-informed care that is recognized for clinical excellence, coordinated access and collaborative innovation.

Our Mission

WestCare empowers everyone with whom we come into contact with to engage in a process of healing, growth, and change benefiting themselves, their families, co-workers, and communities.

Who We Are

WestCare Nevada is a behavioral health and human services non-profit committed to delivering high-quality and cost-effective services that empower people to transform their lives.
